

AUTOMATIC ELECTRONIC STATEMENT ENROLLMENT

Coloramo is committed to environmental sustainability and operational efficiency. We enroll all online account holders for electronic statements (e-statements). By opening an account online, you are opting in to receive e-statements for your account(s).

We also want to emphasize the convenience and benefits of e-statements:

- **Environmental Responsibility:** Choosing e-statements reduces paper waste.
- **Instant Access:** E-statements are delivered in your online banking, providing quick and convenient access to your account information.
- **Security:** Electronic statements are often more secure than paper statements, as they are less susceptible to physical loss or theft.
- **Cost Efficiency:** E-statements are a cost-effective alternative, eliminating printing and postage expenses.

If you prefer to receive paper statements, you can request them at any time by contacting us by phone or in writing. Thank you for considering the advantages of e-statements for a more sustainable and convenient banking experience.
